## The Percy Thompson Trophy

Percy Thompson - Natural History and Architecture Photographer - one of founder members. As cup is for Architecture, maybe he was an architect. or enjoyed taking such images. Died fairly young (? In his 50s or 40s), as his widow Betty (whom Sue Carey, Past Exhibition Secretary invited annually as a guest to the Annual Exhibition, until her death at 100 about 2 yrs ago) often said she had been a widow far longer than she was married to him. She really enjoyed being a VIP of the Club's.
